ROADTIGER® DRIVER SEATS

Miles ahead in comfort and ergonomics

ROADTIGER® DRIVER SEATS

To ensure a better drive

A comfortable driver seat is not a superfluous luxury but a valuable investment in your performance, safety and health. With this conviction and our awareness of what you as a truck driver must accomplish every day, we at GRAMMER always have your back when it comes to ergonomic driver seats. TÜV Rheinland confirms that this has been impressively achieved: The top-of-the-line ROADTIGER® LUXURY and COMFORT models were awarded the LGA "Ergonomics Approved" certificate after comprehensive testing.

ROADTIGER® LUXURY

The ROADTIGER Luxury is a seat in a class of its own. It is upholstered in a luxury high-quality leather. With the active climate system the driver remains comfortable at all temperatures. A further special feature is the adjustable side support for the backrest and the seat cushion, ensuring that the seat can be set to individual driver's needs.

ROADTIGER® COMFORT

The ROADTIGER Comfort offers additional features to make the driver's journey much more pleasant. The passive climate system and seat heating ensure wellbeing in all temperatures. Thanks to the shoulder adjustment, the adjustable side support in the backrest and the 3-step seat belt height adjustment the seat can be made to fit the driver even more perfectly.

ROADTIGER® STANDARD

The ROADTIGER Standard features a pneumatic suspension system with automatic weight adjustment. It also comes with a fore/aft isolator, lumbar support and a finely adjustable backrest. The seat tilt adjustment and adjustable seat cushion depth ensure ergonomic comfort whilst sitting even in the entry level.
